# User Manual

Easy Fold

Care for customers from the heart

- Good clear picture quality
- Exquisite design
- Easy to use

Thank you for choosing our screen. Please read through these instructions before using the product.

Thank you for choosing our screen. Please read through the user manual before using the screen. Correct usage and maintenance will insure a long life for the product.

User instructions

■ When setting up the projection screen, care must be taken to distinguish between the front and back of the screen fabric. The back of the fabric will have labels on it.

■ Dust, dirt and scratches on the projection surface will affect the picture quality, take note of the points below to prevent this:

1. Do not touch the projection surface with hands.
2. Do not write or draw on the projection surface.
3. Do not use fingers or sharp objects to point on the projection surface, this will damage the screen fabric.
4. Use a soft damp cloth to clean the projection surface, do not use chemical cleaning agents or alcohol. Use clean water.

After using the screen, disassemble the screen and store it in the box provided.
To avoid accidental damage and injury the screen should only be operated by adults.

■
■

Product Discription

■ **Design:**
The aluminium frame is designed to be light weight and easily operated.
This makes it easy to carry, assemble and disassemble.

■ **Screen Fabric:**
The screen fabric is attached to the rectangular frame and held in place by several press studs, which ensure an evenly stretched and perfectly flat surface.
The front and rear projection fabric has a viewing angle of 100° and a gain of 1.0.
Both types of fabric are durable and can be folded many times with out damage or disortion.

Assembly:
■ The screen can be assembled in 3 minutes and with out the use of tools. When not in use the screen is stored in an impact resistant carrying case.

Ideal for:
■ Business meetings, churches, schools, family centers and industrial training rooms.

Correct use of the projection screen will ensure better results.
For front projection assemble and view the screen as indicated in Fig.1.
For rear projection assemble and view the screen as indicated in Fig.2.

(Fig. 3)

1. Take the frame out of the box and place it on a flat surface. Unfold the longer sections first. (Fig. 3+4)

(Fig. 4)

(Fig. 5)

°Carbazole
2. Unfold the frame until the latch on the hinge "clicks" into place. Repeat the procedure for the shorter sections. (Fig. 5+6)

(Fig. 6)

(Fig. 7)   (Fig. 8)

3. Make sure all 4 corners of the frame are at 90^0 and the hinged support bar is straight and not bent. (Fig. 7-10)
(Fig. 9)

(Fig. 10)

4. Take the screen fabric out of the bag and put it inside the frame next to the corner.
Unfold as shown in the diagram.
(Fig. 10+11)

(Fig. 11)

(Fig.12)

5. Once the screen fabric is fully unfolded, secure it to the frame by the press studs. Secure the press studs in the order shown in Fig. 12-16.

A   H   G

B   F

C   D   E
(Fig.13)

(Fig.14)
6. Fasten the buckles by following step CG ➡ AE ➡ BDFH➡ fasten the rest buckles one by one. (Fig. 13)
(Fig.15)

(Fig.16)

(Fig.17)

7. Take the folding legs out of the box and unfold as shown in Fig.17. and make sure the hinges click into place.
(Fig.18)
8. Once the legs are locked in place use the hand screws to secure the support leg to the vertical leg in an appropriate position. (Fig. 18-19)

(Fig.20)

(Fig.21)

(Fig.22)

9. Lay the frame on the floor and position the legs over the sides of the frame. Use the hand screws to attach the frame to the legs. Once the legs are firmly attached lift the frame into the vertical position. (Fig. 20+21)
10. When the frame is in the vertical position fold the front facing feet of the legs out. Assembly is complete and the projection screen will be stable on a flat surface. (Fig. 22)

11. After using the screen disassemble the screen and store it in the box provided. To disassemble the screen, implement the assemble procedure in reverse order.
